1.9	E-Commerce planning	8
1.10	Phases of e-Commerce	10
1.11	Steps of e-Commerce implementation	11

	PAGE
1.12 Understand, analyse and sort out e-Commerce issues	14
1.13 E-Commerce in Government	22
1.14 Actions to implement e-Commerce	22

2

E-PROCUREMENT ACHIEVES HIGHER SERVICE LEVELS

2.0 E-Procurement	27
2.1 Challenges of e-Procurement	29
2.2 Business goals of e-Procurement	29
2.3 Top seven benefits to the e-Procurement process	29
2.4 E-Procurement is sensitive and important	30
2.5 Comparison between conventional purchasing and e-Procurement	31
2.6 The utility of e-Procurement	32
2.7 Cost reduction through e-Procurement	33
2.8 Elements of e-Procurement procedure	34
2.9 Features of good e-Procurement module	34
2.10 Types of e-Procurement modules	40
2.11 E-Tendering for project procurement	40
2.12 E-Procurement phases	41
2.13 Need for electronic support in e-Procurement	42
2.14 Evaluation of e-Procurement	43

3

E-SELLING: A NEW AVENUE FOR BETTER SERVICE AND PRICE THROUGH ONLINE ENGAGEMENT

3.0 Why e-Selling?	45
3.1 Create e-Market space	46
3.2 Management support and actions to initiate e-Selling	46
3.3 Key success factors in e-Selling	47
3.4 E-Selling may not work in some situations	49
3.5 Prepare e-Selling strategy	50

3.6	Develop in-house skills for e-Selling	51
3.7	E-Selling infrastructure	51

4

E-AUCTION WEBSITE

4.0	What is e-Auction website?	54
4.1	Utility of e-Auction websites	55
4.2	Challenges for building website	55
4.3	Features of a good e-Auction website	56
4.4	Each e-Auction website is unique and different	57
4.5	Steps in web designing	58
4.6	Approaches for e-Auction web designing	58
4.7	Hosting of e-Auction website	59
4.8	Provision for e-Payment	60
4.9	How payment authorization and settlement works in e-Auctions	60
4.10	How authenticated SSL certificates work	60
4.11	Make it easy for customers to pay you	61
4.12	E-Auction portal	61
4.13	Digital signatures	63
4.14	Draft of a 'proposal' for development of new e-Auction website by a new web user	65

5

HIRING E-AUCTION SERVICE PROVIDER FOR E-AUCTIONS

5.0	Why service provider (SP)?	79
5.1	Choice between portal of service provider and client's own web for e-Auctions	79
5.2	Client's options for hiring number of service providers (SP)	81
5.3	Client to decide issues before hiring SP	81
5.4	Pre-requisites of a good e-Auction SP	81
5.5	Criteria for selection of service provider for e-Auction	83
5.6	Scope of agreement of client with SP	85

	PAGE
5.7 Process to finalise agreement with service provider	86
5.8 Fee options for services of service provider	86
5.9 Performance evaluation of SP	87

6

E-AUCTION - A PROVEN TOOL FOR COST OPTIMIZATION

6.0 What are e-Auctions?	89
6.1 Why e-Auctions are getting popularity?	90
6.2 Benefits of e-Auctions	90
6.3 Still why India is nascent in implementation of e-Auctions?	91
6.4 Challenges of e-Auctioning	92
6.5 Comparison between manual negotiation and negotiation through e-Auction	93
6.6 Difference between auction and e-Auction	93
6.7 Limitations of e-Auctions	94

8.14	Bidding process	155
8.15	Password and security for participation in e-Auction	156
8.16	Benefits for registered buyers and sellers	156
8.17	Bidding window for bidding	156
8.18	Sample bidding windows of FA and RA	157
8.19	Bid withdrawal in e-Auction	158
8.20	Auto extension of e-Auction	158
8.21	Minimum bid increment/decrement of e-Auction	159
8.22	Proxy bidding in e-Auctions	159
8.23	E-Auction report for client	160
8.24	Bid sequence in e-Auction	160
8.25	Facilitating bidders before and during e-Auction	160
8.26	Acceptance form from bidder and submission of EMD	161
8.27	Sample of "acceptance form" as given below has to be accepted by bidder before e-auction	161

	PAGE
8.28 Definitions for words in terms and conditions of the e-Auction	162
8.29 General terms and conditions of e-Auction	163
8.30 Disclaimer from service provider	164
8.31 Requirements from bidders for participation	165
8.32 Conditions applicable to online e-Auction method of bidding	166
8.33 Contract validity	166
8.34 Mode of payment by bidders	166
8.35 Applicable Taxes, duties & levies and charges on e-Auction rates	167
8.36 Description of materials, quality and quantity	167
8.37 Conditions of lifting and delivery of materials	168
8.38 Actual bidding in e-Auction	170
8.39 E-Auction report from SP to client	170
8.40 Required post bid documents for clients	170
8.41 Steps for conducting e-Auction for logistics	171
8.42 FAQ and answers about e-Auctions	172

9

TEN INSPIRATIONAL SUCCESS STORIES OF E-AUCTIONS THAT EVERY COMPANY SHOULD FOLLOW TO INCREASE PROFIT

◆ Case 1 - Success story of RA for transportation of a leading Steel Tubes manufacturing Company in India	176
◆ Case 2 - Success story of RA for transportation of a leading Paint manufacturing Company in India	177
◆ Case 3 - Success story of RA for international shipping including custom clearance of a leading Auto parts manufacturing Company in NCR region in India	178
◆ Case 4 - Success story of RA for transportation of a leading Engines manufacturing Company in India	179
◆ Case 5 - Success story of procurement through RA for a leading Motor manufacturing Company in India	180
◆ Case 6 - Success story of RA for finalisation of transport contract of a leading Compressor manufacturing Company in India	180

	PAGE
◆ Case 7 - Success story of selling scrap through FA of leading Motor manufacturing Company in India	181
◆ Case 8 - Success story of RA for procuring consumables for a leading FMCG Company in Delhi NCR	182
◆ Case 9 - Success story of selling scrap through FA for a leading Automobile Company in Maharashtra, India	183
◆ Case 10 - Success story of RA for purchase of Cans of leading Paint Company in Kolkata	183

10

75 IDEAS FOR INCREASING YOUR COMPANY'S PROFIT THROUGH E-AUCTIONS

◆ Idea 1 - Corrective and preventive actions against defaulting bidders	186
◆ Idea 2 - Impacts on e-Auction of tendency of a bidder to win more than his financial capacity	187
◆ Idea 3 - It is wrong to negotiate by client with bidder after winning of e-Auctions	188
◆ Idea 4 - Close interaction of service provider can bring consistency in bidding behaviour of bidders in e-Auctions	189
◆ Idea 5 - E-Auction is better than single e-sealed-bid and is preferred	190
◆ Idea 6 - Pros and cons of bidding in lots either in sequence or in one go	191
◆ Idea 7 - Review e-Auctions' performance for continual improvements to achieve better value contribution	192
◆ Idea 8 - Sometimes bidder claims that his bid was not accepted by the computer system during bidding	195
◆ Idea 9 - Evil of cartelisation exists even in e-Auctions also	195
◆ Idea 10 - Clients to hire an appropriate service provider (SP) for e-Auctions	197
◆ Idea 11 - Need of performance review of SP for continual improvement	198
◆ Idea 12 - It is wrong that some clients make blind and unilateral statements about e-Auction	198
◆ Idea 13 - Need of transparent and correct data from client for his e-Auctions	199
◆ Idea 14 - Clients to adopt and stick single mode of sale and purchase for a duration for getting right prices in e-Auctions	200

	PAGE
◆ Idea 15 - All involved act to resolve “no bid” situations in e-Auctions	201
◆ Idea 16 - Secure EMD and security deposit (SD) before allowing bidder to bid in e-Auction	203
◆ Idea 17 - Ensure to detect and stop connivance of service provider with selective bidders	203
◆ Idea 18 - Ensure that Service Providers makes the e-Auction successful	204
◆ Idea 19 - Avoidance of computer system related hindrances during e-Auctions	205
◆ Idea 20 - E-Auction is not successful for small quantity and low values items	206
◆ Idea 21 - Take full advantage as e-Auctions are still nascent in India	206
◆ Idea 22 - Placement of dummy bids in e-Auctions could be considered in very special cases only	207
◆ Idea 23 - E-Auctions optimise costs only on continuity of e-Auction mode for longer duration	208
◆ Idea 24 - All stakeholders to be beware of fraud and manipulations in e-Auctions	209
◆ Idea 25 - Terms to bind to honour of H2/L2 bid	211
◆ Idea 26 - Problems in e-Auction due to SP’s server problems	211
◆ Idea 27 - Monitor IP addresses of bidders during e-Auctions	212
◆ Idea 28 - E-Auction catalogue to bring clarity on applicable taxes and other charges	212
◆ Idea 29 - Technology and process of e-Auctioning need to be up-graded as per need	213
◆ Idea 30 - Utility and application of rank e-Auctions	213
◆ Idea 31 - Reserve price is vital in forward auctions (FA)	214
◆ Idea 32 - Entry of unworkable/high bids by bidders in FA	216
◆ Idea 33 - Default of bidders and stopping lifting materials won through FA	217
◆ Idea 34 - Ensure stoppage of selective lifting by bidder after award of lot in FA	218
◆ Idea 35 - Clients to stop the practice of removal of items from the lots after award to bidder through FA	219
◆ Idea 36 - Clients to ensure formation of proper lots for success of FA	220

	PAGE
◆ Idea 37 - Bidders must inspect the materials before bidding in FA to avoid disputes	221
◆ Idea 38 - Clients to support new bidders when existing bidders hinder them	222
◆ Idea 39 - Client cannot afford mistakes of returning EMD to bidder before complete lifting of materials won in FA	223
◆ Idea 40 - E-Auctions is most appropriate tool for disposal of idle assets, obsolete items, surplus assets, old and used machinery and plant	224
◆ Idea 41 - Special case of stopping entry of new bidders by existing bidders in FA	227
◆ Idea 42 - Experience of clients and bidders in RAs	228
◆ Idea 43 - Impact of RA on suppliers	229
◆ Idea 44 - Is reverse auction best answer for efficient procurement?	231
◆ Idea 45 - Appropriate RA plan leads to its success	232
◆ Idea 46 - Considerations for success of RAs	234
◆ Idea 47 - Acknowledged impressions of RAs	235
◆ Idea 48 - “Low bid and best value just don’t mix” true conflict in RAs	236
◆ Idea 49 - RA is unsuitable for contracting the construction projects	236
◆ Idea 50 - A new initiative of RA for export and import covering door to door delivery has been successful	237
◆ Idea 51 - Strategy for introduction of new suppliers in RAs	237
◆ Idea 52 - RA is suitable for centrally procured items, aggregated from different units of a large company	238
◆ Idea 53 - RA is an appropriate tool for finalizing rate contracts	239
◆ Idea 54 - Multiple-issue e-Auctions takes care of special needs of quality and services in procurement	240
◆ Idea 55 - Now a days transport e-Auctions are becoming popular with special provisions and features	241
◆ Idea 56 - Suitability of contract duration in transport e-Auction	241
◆ Idea 57 - Illogical expectations of clients of substantial savings in every transport e-Auction	242
◆ Idea 58 - Selection of vehicles in transport e-Auctions	243
◆ Idea 59 - Selection of EMD amount is a special consideration for transport e-Auctions	244

	PAGE
◆ Idea 60 - Introduction of new bidder in transport e-Auctions needs special scrutiny	245
◆ Idea 61 - Let us not repeat the experience of failure of transport e-Auctions due to existing transporters, participating also as bidders	245
◆ Idea 62 - Selection of destinations in transport e-Auctions should be done based on viability	246
◆ Idea 63 - Clients to adopt the policy of linking the diesel prices to quoted rates for success of transport e-Auctions	247
◆ Idea 64 - Tactic in fixation of start bid prices in subsequent transport e-Auction	248
◆ Idea 65 - Popularity and use of mobile apps for e-Auctions	249
◆ Idea 66 - Specialized e-Auction portals are really useful and gaining popularity	249
◆ Idea 67 - Specialised portals for bank e-Auctions	250
◆ Idea 68 - Specialised portals for transport and logistics e-Auctions	251
◆ Idea 69 - Specialised portals for tea e-Auctions	252
◆ Idea 70 - Specialised portals for property e-Auctions	252
◆ Idea 71 - Specialised portals for coal e-Auctions	253
◆ Idea 72 - Specialised portals for e-Auctions for Vanity/Fancy/Premium mobile Nos.	253
◆ Idea 73 - Specialised portals for e-Auction of natural resources	254
◆ Idea 74 - Case study of benefits of conducting FA	254
◆ Idea 75 - Case study of benefits of conducting RA	255
