

Preface

It gives me immense pleasure to author this book on Cost and Management Accounting based on New Curricula for CA Intermediate.

This Book contains both Theory and Practical questions. The layout of this book is in a Question & Answer format with an attempt to ensure that, even the mundane theory matter is quickly grasped and understood by the reader.

Salient features of the book

- ◆ *List of Formulae/Formats for Quick Revision*
- ◆ *Coverage of Past Examination Questions/RTP/MTP*
- ◆ *All theory concepts in Q & A format*
- ◆ *Questions laid out in line with latest Syllabi of ICAI*
- ◆ *Summary of concepts at the end of each chapter*

I hope that readers will find the content of the book user friendly and helpful in preparation of their examination.

I hereby extend my sincere thanks to team of TAXMANN for their support for publishing this book.

I am thankful to my parents Mr. G. R. Gupta and Mrs. Asha Gupta for their valuable inputs, support and Co-operation and to my wife Kavita Gupta for her understanding without which this project would never have been completed successfully.

Special Thanks to CA. PARVEEN SHARMA, whose contribution cannot be expressed in words.

Though all possible care has been taken to avoid any errors, however, I would appreciate any views and suggestions from the readers to incorporate any further improvements to the book.

Wishing success to every reader.

CA. SACHIN GUPTA
