CHAPTER 1

ROLE OF FINANCIAL STATEMENTS

1.1	Explain financial statements and its use for the stakeholders	3
1.2	Explain Auditor's report and other sources of financial information	5
1.3	Explain the Accounting Equation and its components	10
1.4	Discuss the relationship between the constituents of financial statements	11
1.5	Describe the structure of financial statements	12
1.6	Describe other comprehensive income	24
	Summary	25
	Attempt the following Questions based on the learning	28

CHAPTER 2

RELEVANCE OF NOTES TO ACCOUNTS AND SCHEDULES TO FINANCIAL STATEMENTS

2.1	Explain the term accounting policies	35
2.2	Explain the accounting principles, standards and disclosure	38
2.3	Explain notes to financial statements	47
2.4	Explain schedule to financial statements	50
	Summary	51
	Attempt the following Questions based on the learning	54

CHAPTER 3**LEASES, HIRE PURCHASE, PENSION
LIABILITIES AND FINANCIAL ASSETS**

3.1	Explain the term lease, types of lease and its merits and demerits	61
3.2	Discuss accounting for lease and its impact on financial statements	63
3.3	Explain hire purchase and its accounting	69
3.4	Discuss defined contribution and defined benefit pension plans	76
3.5	Describe financial assets and its classification for investment	80
	Summary	83
	Attempt the following Questions based on the learning	86

CHAPTER 4**NUANCES OF ACCOUNTING : INVENTORY
VALUATION, METHODS OF DEPRECIATION,
EPS, INTANGIBLE ASSETS AND FOREIGN
EXCHANGE**

4.1	Discuss the various methods of valuation of inventories	95
4.2	Explain the methods of Depreciation of Assets	102
4.3	Explain the concept of Earnings per Share	108
4.4	Discuss the various aspects of Intangible assets	111
4.5	Explain how do we calculate Deferred Taxes	114
4.6	Explain the concept of Foreign Exchange Gain/Loss	117
	Summary	120
	Attempt the following Questions based on the learning	123

CHAPTER 5**RATIO ANALYSIS**

5.1	Explain the importance of Ratio Analysis	131
-----	--	-----

	<i>Page</i>
5.2 Calculate and interpret operating performance and risk analysis ratios	131
5.3 Calculate and interpret other important ratios	139
5.4 Discuss the uses and limitations of ratio analysis	143
5.5 Discuss the concepts of trailing ratios and forward ratios	144
5.6 Discuss and interpret valuation ratios	146
5.7 Discuss credit specific ratios	151
5.8 Discuss important ratios during corporate restructuring	153
5.9 Perform ratio analysis for a manufacturing concern, trading concern and service firm	155
5.10 Discuss the concept of DuPont Analysis and its importance	166
Summary	170
Attempt the following Questions based on the learning	173

CHAPTER 6

RED FLAGS AND FORENSIC ACCOUNTING

6.1 Discuss what are red flags and how can they be identified	181
6.2 Discuss the key aspects of Sarbanes-Oxley Act	190
6.3 Discuss the reasons for companies shifting their accounting period	191
6.4 Discuss the current scenario of accounting frauds	192
6.5 Discuss the concept of forensic accounting	193
Summary	194
Attempt the following Questions based on the learning	197

CHAPTER 7

BUSINESS COMBINATIONS

7.1 Explain Merger and the various types of Merger	205
7.2 Explain Acquisitions and Takeovers	207
7.3 State the advantages of M&A	208

	<i>Page</i>	
7.4	Describe Organic and Inorganic growth in a business	210
7.5	Discuss takeover defenses to prevent hostile takeover	211
7.6	State the different ways in which Valuation of the target is done	212
7.7	Explain how to project future performance	213
7.8	Explain what should be the Analyst's agenda	214
7.9	Explain the key ratios if Synergy works out and the key ratios if the Synergy does not work out with the help of an example	215
7.10	Describe Leverage Buyout (LBO) and its capital structure	222
7.11	Discuss a case study on merger and its after effects	224
	Summary	225
	Attempt the following Questions based on the learning	229

CHAPTER 8

COMPARE & CONTRAST - US GAAP AND IFRS

8.1	Contrast the components of financial statements under US GAAP and IFRS	237
8.2	Compare the format of presentation of financial statements under US GAAP and IFRS	237
8.3	Compare statement of changes in equity under US GAAP and IFRS	239
8.4	Examine important constituents of balance sheet under US GAAP and IFRS	240
8.5	Examine important constituents of statement of profit and loss account under US GAAP and IFRS	243
8.6	Discuss the differences in statement of cash flow under US GAAP and IFRS	244
8.7	Discuss consolidated financial statements under US GAAP and IFRS	245
8.8	Discuss others important differences between US GAAP and IFRS	246
8.9	Show differences between US GAAP and IFRS through a case study	247
8.10	Revenue recognition under US GAAP and IFRS	252
	Summary	255
	Attempt the following Questions based on the learning	259

CHAPTER 9

COVENANTS AND ANALYSIS

9.1	Describe the term covenants	267
9.2	Describe the goals of covenant testing	268
9.3	Explain the different types of covenants	270
9.4	Describe the term Covenant Breach	272
9.5	Discuss the concept of cross default	272
9.6	Discuss the debt incurrence covenant, restricted payments covenant and early redemption covenant	273
9.7	Explain the terms Limitations on lien, Limitations on sale and lease-back transactions and asset sale	274
9.8	Discuss Change of Control as a covenant	275
9.9	Describe the role of Mergers and Acquisitions as a covenant	276
9.10	Explain the term Transaction with Affiliates and Related Party Transaction	276
9.11	Explain the repercussions of default in debt	276
9.12	Explain the meaning of Indenture Analysis and its importance in determining the covenants	277
	Summary	278
	Attempt the following Questions based on the learning	283

CHAPTER 10

FINANCIAL MODELLING AND COVENANT TESTING

10.1	Explain the concept of financial modelling and why is it performed	289
10.2	Discuss techniques used in financial modelling	290
10.3	Discuss methods of projecting financial statements	291
10.4	Discuss covenant testing using financial projections	294
10.5	Describe the elements of cost drivers and revenue drivers	295

	<i>Page</i>
10.6 Explain the modelling of amortization of debt	297
Summary	300
Attempt the following Questions based on the learning	302

CHAPTER 11

THE BANKER'S PERSPECTIVE

11.1 Explain the concept of loan and what are the documentation and other methodologies involved in sanctioning the loan	309
11.2 Discuss know your customer requirement	310
11.3 Discuss credit analysis for banks	311
11.4 Discuss the behavioural aspects of credit officer	312
11.5 Discuss the credit proposal and credit approval	313
11.6 Discuss ESG analysis for loans or bonds	315
11.7 Discuss Credit Monitoring Arrangement	316
11.8 Describe capital budgeting methods	318
Summary	319
Attempt the following Questions based on the learning	322

CHAPTER 12

LIQUIDITY ANALYSIS

12.1 Explain the concept of liquidity.	327
12.2 Compare and contrast liquidity from solvency	328
12.3 Discuss the various measures of liquidity	330
12.4 Explain quick ratio and its importance.	332
12.5 Discuss how liquidity impacts credit rating	333
12.6 Explain the concept of debt maturity schedule	334
12.7 Discuss the role of Liquidity in an Economy <i>via</i> a Case Study	336
Summary	337
Attempt the following Questions based on the learning	340

CHAPTER 13

LIQUIDATION SCENARIO

13.1	Explain the concept of liquidation and how it is different in case of banks	<i>347</i>
13.2	Contrast between compulsory and voluntary liquidation	<i>348</i>
13.3	Discuss the order of repayment in the scenario of liquidation	<i>349</i>
13.4	Describe the accounting process during liquidation under US GAAP	<i>349</i>
13.5	Discuss the concept of Phoenix Company	<i>351</i>
13.6	Discuss a liquidation case and the factors leading upto it	<i>352</i>
	Summary	<i>354</i>
	Attempt the following Questions based on the learning	<i>356</i>

CHAPTER 14

CAPITAL STRUCTURE ANALYSIS

14.1	Compare secured and unsecured debt	<i>363</i>
14.2	Describe the concept of senior & sub-ordination in bonds/debt	<i>364</i>
14.3	Explain how the hierarchy of seniority develops	<i>365</i>
14.4	Discuss the priority in repayment	<i>366</i>
14.5	Discuss the potential violation of priority of claims in a bankruptcy proceeding	<i>367</i>
14.6	Show repayment method in different solvency position	<i>368</i>
	Summary	<i>370</i>
	Attempt the following Questions based on the learning	<i>372</i>

CHAPTER 15

INDUSTRY AND PEER ANALYSIS

15.1	Describe the concept of comparisons in financials	<i>377</i>
-------------	---	------------

	<i>Page</i>
15.2 Explain how comparison is made between two entities based on their financial statements	379
15.3 Describe what is meant by a “Peer”	381
15.4 Explain the differentiation of peers based on the industry they are a part of	381
15.5 Explain the differentiation of peers based on their respective sizes	382
15.6 Explain the process of comparisons amongst peers based on the industry they belong to	383
15.7 Establish why there is need to make comparisons on a global basis	384
15.8 Understand competitive analysis of business entities better with the help of Porter’s Model	385
Summary	388
Attempt the following Questions based on the learning	391

CHAPTER 16

STRESS TESTING

16.1 Describe the key steps in stress testing	397
16.2 Explain the framework for Developing Scenarios	398
16.3 Describe Revenue Drivers	399
16.4 Explain Cost drivers	400
16.5 Interpret Leveraged balance sheets	401
16.6 Explain Impending capital raising plans	401
16.7 Explain Internal, industry and environmental considerations	402
16.8 Describe Commodities and stress scenarios	403
16.9 Compare Scenario - base, bear and bull	405
16.10 Interpret Base scenario of a company’s financial information	408
16.11 Interpret Bear case scenario of a company’s financial information	414
16.12 Interpret Bull case scenario of a company’s financial information	418

	<i>Page</i>
16.13 Case Study on stress testing	419
Summary	420
Attempt the following Questions based on the learning	423

CHAPTER 17

FIXED INCOME SECURITIES

17.1 Describe the types of bonds, their features and characteristics	429
17.2 Distinguish fixed income securities on the basis of their maturity and issuer	430
17.3 Discuss the types of fixed income securities by credit rating	440
17.4 Discuss the types of fixed income securities by seniority	441
17.5 Discuss the types of fixed income securities by redemption feature	442
17.6 Discuss the types of fixed income securities by market type	444
17.7 Discuss regulations governing fixed income securities	450
17.8 Discuss the cash flows in a fixed income security	450
Summary	452
Attempt the following Questions based on the learning	455

CHAPTER 18

PRICING, SPREADS AND CURVES

18.1 Describe the types of Interest rate	461
18.2 Discuss the concept of yield curve	465
18.3 Describe interest rate and term structure	466
18.4 Discuss term structure with regard to shapes	468
18.5 Discuss the shift in term structure of rates	469
18.6 Discuss the concept of yield spread	470
18.7 Discuss briefly the concepts of periodic rate, spot rate and forward rate	471
18.8 Explain the concept of valuation curves	474

	<i>Page</i>
18.9 Explain the concept of Rich Cheap Analysis	475
Summary	480
Attempt the following Questions based on the learning	483

CHAPTER 19

BOND AND LOAN VALUATION

19.1 Describe the valuation of a bond and loan	489
19.2 Explain how return is measured	491
19.3 Explain the concept of coupon payments	492
19.4 Explain the term current yield	492
19.5 Explain the concept of Yield-to-maturity, Yield-to-Call and Yield-to-Worst	493
19.6 Explain the concept of Holding Period Return (HPR)	495
19.7 Describe how Price/YTM is not a judgment tool	496
19.8 Discuss the concept of clean price and dirty price	496
19.9 Explain the concept of Interest rate and its term structure	497
19.10 Discuss the theories on shape of term structure	499
19.11 Describe the concept of Price Value of a Basis Point (PVBP)	501
19.12 Explain the impact of monetary policy on bond yield and bond prices	502
Summary	503
Attempt the following Questions based on the learning	507

CHAPTER 20

DURATION MANAGEMENT

20.1 Explain the concept of duration	515
20.2 Explain the concept of effective duration	515
20.3 Discuss the properties of duration	517
20.4 Discuss the effect of changing interest rates on bond values	517

	<i>Page</i>
20.5 Explain the concept of modified duration	518
20.6 Define Convexity and how it affects bond valuation	519
Summary	520
Attempt the following Questions based on the learning	522

CHAPTER 21

INTRODUCTION TO RISK MANAGEMENT

21.1 Understand the concept of risk and compare risk management with risk taking	527
21.2 Understanding the concept of Risk-Return Trade-off	528
21.3 Describe different types of risk and their impact on the organization	529
21.4 Understand the difference between corporate governance and risk management	534
21.5 Describe Enterprise Risk Management (ERM) and compare the cost and benefits for a firm to adopt ERM initiatives	536
21.6 Describe the role and responsibility of a Chief Risk Officer (CRO)	537
21.7 Assess how the CRO should interact with the top management	538
Summary	538
Attempt the following Questions based on the learning	542

CHAPTER 22

INTRODUCTION TO DERIVATIVES MANAGEMENT

22.1 Explain the concept of derivative instruments	549
22.2 Discuss over-the-counter and exchange traded derivatives	550
22.3 Discuss the basics of forward contracts	551
22.4 Discuss the basics of futures contracts	552
22.5 Discuss the basics of swaps	553

	<i>Page</i>
22.6 Discuss the basics of options	554
Summary	556
Attempt the following Questions based on the learning	559

CHAPTER 23

RISK MITIGATION

23.1 Explain Hedging and its importance during risk management	565
23.2 Describe the concept of Minimum hedge ratio	567
23.3 Describe risk management through swaps	567
23.4 Describe risk management through Forward Rate Agreement	568
23.5 Understanding risk management through cap and floor	569
23.6 Understanding risk management through options	572
23.7 Explain hedging in the context of foreign currency	579
23.8 Discuss a case study on currency exposure in the equity and debt markets	583
Summary	584
Attempt the following Questions based on the learning	588

CHAPTER 24

CREDIT DEFAULT SWAPS

24.1 Explain credit risk and the components of credit analysis	597
24.2 Explain risk management through credit derivatives	598
24.3 Explain Credit Default Swaps and state its features	599
24.4 Explain with an example how a CDS is used for risk management	600
24.5 Explain how a settlement in Credit Default Swaps take place	601
24.6 Describe the various Credit Events	602
24.7 Explain the different types of Credit Default Swaps	603
24.8 Explain what Total Return Swap is	605
24.9 Explain the reforms taken after the Financial Crisis in 2008	607

	<i>Page</i>
24.10 State some Practical Limitations of CDS	607
Summary	609
Attempt the following Questions based on the learning	613

CHAPTER 25

CREDIT RATING AND CREDIT SCORING

25.1 Explain Probability of Default, Loss given Default and Expected Loss and describe the relative importance of each across the credit spectrum	619
25.2 Describe the role of the rating agencies in financial market and explain market and regulatory forces that led to the growth of rating agencies	619
25.3 Explain Credit scoring and Credit ratings	620
25.4 Differentiate between an issuer pay and a subscriber pay model and explain any concerns regarding the issuer pay model	621
25.5 Describe the process of rating high yield, sovereign and municipal debts	622
25.6 Explain the strengths and weakness of credit ratings	623
Summary	623
Attempt the following Questions based on the learning	626
