

Preface

The First Edition of Scanner-cum-Compiler (in 2 volumes) for C.A. Foundation has been drafted as per the new syllabus prescribed by ICAI w.e.f. July 2017 & as per the recent amendments in the provisions of the Companies Act, 2013:

- ◆ *For the purpose of ease in study, the book is divided into 2 volumes on the basis of 4 papers:*
 1. *Principles & Practice of Accounting*
 2. *Business Laws & Business Correspondence & Reporting*
 3. *Business Mathematics, Logical Reasoning & Statistics*
 4. *Business Economics & Business & Commercial Knowledge.*
- ◆ *The book includes a large number of well thought out problems & case studies along with their solutions which include comments, explanations and assumptions, working notes & alternatives wherever deemed relevant.*
- ◆ *The book also includes Model Test Papers for Paper 3: Business Mathematics, Logical Reasoning & Statistics & Paper 4: Business Economics & Business & Commercial Knowledge for extensive practice of the students.*
- ◆ *Topics & questions have been sequenced in the order in which it will be convenient & expedient for students to prepare.*
- ◆ ***The book is not a textbook which contains the entire depth of the curriculum nor is it a scanner which only illustrates the previous years' examination questions. It is a compilation of all the important questions, in respect of all the subjects, which are essential to generate the required level of competence to form a strong base in these subjects & to qualify the Foundation examinations.***
- ◆ *The authors are grateful for the initiative & the endeavours put in by the management team of TAXMANN for printing & publishing the First Edition of the book.*

The authors welcome any suggestions & constructive feedback for the improvement of the book.

July, 2019
