<i>Preface</i>	<b><i>I-5</i></b>
<i>Syllabus</i>	<b><i>I-7</i></b>

**PART A**  
**BUSINESS MATHEMATICS**

**1**  
**MATRICES**

<b>1.1</b>	Introduction	<i>1.3</i>
<b>1.2</b>	Definition of Matrix	<i>1.3</i>
<b>1.3</b>	Order of Matrix	<i>1.4</i>
<b>1.4</b>	Equality of Matrices	<i>1.4</i>
<b>1.5</b>	Types of Matrices	<i>1.5</i>
<b>1.6</b>	Algebra of Matrices	<i>1.7</i>
<b>1.7</b>	Determinants	<i>1.15</i>
<b>1.8</b>	Transpose of a Matrix	<i>1.22</i>
<b>1.9</b>	Adjoint of a Square Matrix	<i>1.24</i>
<b>1.10</b>	Inverse of a Square Matrix	<i>1.26</i>
<b>1.11</b>	System of Linear Equations	<i>1.31</i>
<b>1.12</b>	Matrix Inverse Method	<i>1.31</i>
<b>1.13</b>	Cramer's Rule (Determinant Method)	<i>1.32</i>

2**APPLICATIONS OF MATRICES  
TO BUSINESS AND ECONOMICS**

2.1	Introduction	2.1
2.2	Application of Matrix Addition	2.2
2.3	Application of Matrix Subtraction	2.2
2.4	Application of Scalar Multiplication of Matrix	2.3
2.5	Application of Matrix Multiplication	2.4
2.6	Application of Systems of Linear Equations	2.15

3**MATHEMATICAL FUNCTIONS AND  
CONCEPTS OF LIMITS AND CONTINUITY**

3.1	Introduction	3.1
3.2	Mathematical Functions	3.2
3.3	Types of Functions	3.4
3.4	Business Applications of Functions	3.11
3.5	Limits	3.18
3.6	Continuity	3.26

4**CONCEPT OF DIFFERENTIATION**

4.1	Introduction	4.1
4.2	Derivative	4.1
4.3	Rules for Differentiation	4.3
4.4	Differentiation of Implicit Functions	4.10
4.5	Derivative of the Inverse of a Function	4.12
4.6	Logarithmic Differentiation	4.13
4.7	Successive Differentiation	4.15

5**APPLICATIONS OF DIFFERENTIATION**

5.1	Introduction	5.1
5.2	Instantaneous Rates of Change	5.2

	PAGE	
5.3	Increasing and Decreasing Functions	5.3
5.4	Maxima and Minima	5.5
5.5	Application of Differentiation in Commerce and Economics	5.13
5.6	Average Cost and Marginal Cost	5.14
5.7	Average Revenue and Marginal Revenue	5.18
5.8	Marginal Propensity to Consume (MPC)	5.21
5.9	Price Elasticity of Demand	5.24
5.10	Application of Maxima and Minima to Business Problems	5.38
5.11	Optimal Replacement Time	5.54

## 6

### MATHEMATICS OF FINANCE

6.1	Introduction	6.1
6.2	Simple Interest	6.1
6.3	Compound Interest	6.4
6.4	Variable Rate of Compound Interest	6.9
6.5	Continuously Compounding Interest	6.10
6.6	Nominal and Effective Rates of Interest	6.13
6.7	Time Value of Money (TVM)	6.18
6.8	Equation of Value	6.20
6.9	Discounting	6.24
6.10	Nominal and Effective Rates of Discount	6.25
6.11	Depreciation	6.28

## PART B

### BUSINESS STATISTICS

## 7

### FREQUENCY DISTRIBUTIONS

7.1	Introduction	7.3
7.2	Types of Classification	7.3
7.3	Elements of Quantitative Classification	7.4
7.4	Variable	7.4
7.5	Frequency Distribution	7.4

	PAGE
<b>7.6</b> Graphical Presentation of Frequency Distributions	7.13
<b>7.7</b> Bivariate Frequency Distribution	7.20

## 8

### **MEASURES OF CENTRAL TENDENCY**

<b>8.1</b> Introduction	8.1
<b>8.2</b> Objectives of Averaging	8.2
<b>8.3</b> Characteristics of a Good Average	8.2
<b>8.4</b> Types of Averages	8.3
<b>8.5</b> Arithmetic Mean	8.3
<b>8.6</b> Mathematical Properties of Arithmetic Mean	8.20
<b>8.7</b> Drawbacks of Arithmetic Mean	8.24
<b>8.8</b> Weighted Arithmetic Mean	8.24
<b>8.9</b> Median	8.27
<b>8.10</b> Merits of Median	8.37
<b>8.11</b> Demerits of Median	8.38
<b>8.12</b> Properties of the Median	8.38
<b>8.13</b> Comparison of Mean and Median	8.39
<b>8.14</b> Other Partition or Positional Values - Quartiles, Deciles and Percentiles	8.39
<b>8.15</b> Graphic Method of Locating the values of Median, Quartiles, Deciles, Percentiles, etc.	8.48
<b>8.16</b> Mode	8.55
<b>8.17</b> Merits of Mode	8.66
<b>8.18</b> Demerits of Mode	8.66
<b>8.19</b> Empirical Relationship between Mean, Median and Mode	8.66
<b>8.20</b> Comparison of Mean, Median and Mode	8.68
<b>8.21</b> Geometric Mean	8.70
<b>8.22</b> Merits of Geometric Mean	8.80
<b>8.23</b> Drawbacks of Geometric Mean	8.80
<b>8.24</b> Weighted Geometric Mean	8.80
<b>8.25</b> Harmonic Mean	8.83
<b>8.26</b> Weighted Harmonic Mean	8.88

	PAGE	
8.27	Merits of Harmonic Mean	8.91
8.28	Drawbacks of Harmonic Mean	8.91
8.29	Relationship Between AM, GM and HM	8.92
8.30	Choice of an Average	8.93

## 9

### MEASURES OF DISPERSION

9.1	Introduction	9.1
9.2	Definitions of Measures of Dispersion	9.2
9.3	Objectives of Measures of Dispersion	9.2
9.4	Properties of a Good Measure of Dispersion	9.3
9.5	Different Measures of Dispersion	9.3
9.6	Range	9.4
9.7	Merits and Demerits of Range	9.5
9.8	Uses of Range	9.5
9.9	Quartile Deviation or Semi Inter-Quartile Range	9.6
9.10	Merits and Demerits of Quartile Deviation	9.12
9.11	Mean Deviation	9.13
9.12	Merits and Demerits of Mean Deviation	9.20
9.13	Standard Deviation	9.22
9.14	Correcting Incorrect Values of Mean and Standard Deviation	9.33
9.15	Mathematical Properties of Standard Deviation	9.35
9.16	Relationship Between Measures of Dispersion	9.41
9.17	Coefficient of Standard Deviation and Coefficient of Variation	9.43
9.18	Variance	9.49
9.19	Merits, Demerits and Uses of Standard Deviation	9.53

## 10

### SIMPLE LINEAR CORRELATION

10.1	Introduction	10.1
10.2	Definitions of Correlation	10.1
10.3	Types of Correlation	10.2
10.4	Correlation - Cause and Effect Relationship	10.4
10.5	Correlation Coefficient	10.5

	PAGE
<b>10.6</b> Methods of Studying Correlation	<i>10.5</i>
<b>10.7</b> Scatter Diagram	<i>10.6</i>
<b>10.8</b> Covariance	<i>10.8</i>
<b>10.9</b> Karl Pearson's Coefficient of Correlation	<i>10.10</i>
<b>10.10</b> Properties of Karl Pearson's Coefficient of Correlation (r)	<i>10.13</i>
<b>10.11</b> Assumptions of Karl Pearson's Coefficient of Correlation	<i>10.14</i>
<b>10.12</b> Merits and Demerits of Karl Pearson's Coefficient of Correlation	<i>10.14</i>
<b>10.13</b> Coefficient of Correlation for Bivariate Frequency Distributions	<i>10.26</i>
<b>10.14</b> Spearman's Coefficient of Rank Correlation	<i>10.33</i>
<b>10.15</b> Computing Spearman's Coefficient of Rank Correlation	<i>10.34</i>
<b>10.16</b> Merits and Demerits of Rank Correlation Method	<i>10.41</i>

## 11

### **SIMPLE LINEAR REGRESSION**

<b>11.1</b> Introduction	<i>11.1</i>
<b>11.2</b> Methods of Studying Regression	<i>11.3</i>
<b>11.3</b> Drawing Regression Lines - Free Hand Curve Method	<i>11.3</i>
<b>11.4</b> Drawing Regression Lines - Method of Least Squares	<i>11.4</i>
<b>11.5</b> Why Two Regression Lines?	<i>11.6</i>
<b>11.6</b> Difference Between Correlation and Regression	<i>11.7</i>
<b>11.7</b> Relationship between Regression Coefficient and Covariance and Variance	<i>11.11</i>
<b>11.8</b> Properties of Regression Coefficients	<i>11.21</i>
<b>11.9</b> Regression Coefficients for Bivariate Grouped Frequency Distributions	<i>11.30</i>
<b>11.10</b> Utility/Use of Regression Analysis	<i>11.34</i>
<b>11.11</b> Limitation of Regression Analysis	<i>11.35</i>

## 12

### **INDEX NUMBERS**

<b>12.1</b> Introduction	<i>12.1</i>
<b>12.2</b> Some Definitions of Index Numbers	<i>12.2</i>
<b>12.3</b> Characteristics of Index Numbers	<i>12.2</i>
<b>12.4</b> Types of Index Numbers	<i>12.3</i>

	PAGE
<b>12.5</b> Problems in the Construction of Index Numbers	<i>12.4</i>
<b>12.6</b> Methods for Constructing Index Numbers	<i>12.5</i>
<b>12.7</b> Price Index Numbers	<i>12.6</i>
<b>12.8</b> Quantity Index Numbers	<i>12.20</i>
<b>12.9</b> Value Index Numbers	<i>12.25</i>
<b>12.10</b> Tests of Adequacy	<i>12.26</i>
<b>12.11</b> Link Relative	<i>12.34</i>
<b>12.12</b> Fixed Base Index Numbers (FBI)	<i>12.34</i>
<b>12.13</b> Chain Based Index Numbers (CBI)	<i>12.34</i>
<b>12.14</b> Consumer Price Index (CPI)	<i>12.38</i>
<b>12.15</b> Base Shifting	<i>12.39</i>
<b>12.16</b> Splicing of Index Numbers	<i>12.41</i>
<b>12.17</b> Deflating	<i>12.41</i>
<b>12.18</b> Construction of Cost of Living Index	<i>12.42</i>
<b>12.19</b> Advantages and Uses of Index Numbers	<i>12.47</i>
<b>12.20</b> Limitations of Index Numbers	<i>12.49</i>

### 13

## TIME SERIES ANALYSIS

<b>13.1</b> Introduction	<i>13.1</i>
<b>13.2</b> Some Definitions of Time Series	<i>13.1</i>
<b>13.3</b> Objectives of Time Series Analysis	<i>13.2</i>
<b>13.4</b> Significance of Time Series Analysis	<i>13.2</i>
<b>13.5</b> Components of Time Series	<i>13.3</i>
<b>13.6</b> Analysis of Time Series (Models of Decomposition)	<i>13.5</i>
<b>13.7</b> Measurement of Trend	<i>13.6</i>
◆ <b>Question Paper</b> : B.Com (Prog.) CBCS (2019) Business Mathematics & Statistics	<i>P.1</i>
◆ <b>Appendix</b> : Tables	<i>A.3-A27</i>
