Preface to third edition *I-5*

Acknowledgement *I-9*

Syllabus *I-11*

Chapter-heads *I-13*

1

FINANCIAL MANAGEMENT : AN OVERVIEW

1.1 Meaning of Financial Management *1*

1.2 Nature and Scope of Financial Management *2*

1.3 Evolution of Financial Management *2*

1.3.1 The Traditional Phase (till early 1940's) *3*

1.3.2 The Transitional Phase (1940 - early 1950's) *3*

1.3.3 The Modern Phase (Since mid 1950's) *3*

1.4 Interdisciplinary Aspects of Financial Management *4*

1.4.1 Financial Management and Economics *4*

1.4.2 Financial Management and Accounting *4*

1.4.3 Financial Management and Statistics *5*

1.4.4/5 Financial Management and Production Management *5*

1.4.6 Financial Management and Marketing Management *5*

1.4.7 Financial Management and psychology and Organisational Behaviour *5*

1.5 Financial Management Decisions *6*

1.5.1 Capital Budgeting Decision *6*

PAGE

1.5.2 Capital Structure Decision *7*
1.5.3 Dividend Decision *7*
1.5.4 Working Capital Management Decision *8*
1.5.5 Inter-relationships between Financial decisions *8*
1.6 Objective of Financial Management *9*
1.6.1 Profit Maximization as Objective of Financial Management *9*
1.6.2 Shareholders' Wealth Maximization (SWM) as Objective of Financial Management *10*
1.7 Role of a Finance Manager *13*
1.8 Finance Function in an Organization *14*
Summary *16*
Test Yourself *17*
Theory Questions *17*

2

TIME VALUE OF MONEY

2.1 Concept of Time Value of Money *20*
2.2 Reasons for Time Value of Money *20*
2.3 Is inflation the fundamental reason for time value of money? *22*
2.4 How to Consider (or adjust for) Time value of Money in Finance? *22*
2.5 Compounding *24*
2.6 Discounting Technique *30*
2.7 Annuity Due *34*
2.8 Use of Discounting (Present Value) and Compounding (Future Value) Techniques in Financial Management *36*
Summary points *44*
Test Yourself *45*
Theory questions *46*
Numerical Problems *47*

3

CAPITAL BUDGETING - AN OVERVIEW

3.1 Concept of Capital Budgeting *48*

PAGE

3.2 Features of Capital Budgeting *49*
3.3 Importance of Capital Budgeting Decision *50*
3.4 Types of Capital Budgeting Decision (or Investment decision) *50*
3.5 Types of Capital projects *51*
3.6 Capital Budgeting (or Investment Decision) Process *52*
3.7 Estimation of Cost and Benefits from the Project *53*
3.8 Estimation of Cash Flows *56*
3.9 Treatment of Special items while Calculating CFAT or NCF *63*
Summary points *77*
Test Yourself *78*
Theory Questions *79*
Numerical problems *80*

4

CAPITAL BUDGETING TECHNIQUES

4.1 Introduction *83*
4.2 Traditional or Non-Discounting Cash Flow Techniques *84*
4.2.1 Accounting Rate of Return *84*
4.2.2 Payback Period Method *88*
4.2.3 Limitations of Traditional or Non Discounting Techniques *93*
4.3. Discounted Cash Flow (DCF) Techniques *94*
4.3.1 Net Present Value *94*
4.3.2 Profitability Index Method *98*
4.3.3 Internal Rate of Return (IRR) Method *102*
4.3.4 Relationship between NPV, IRR and Cost of capital (k) *108*
4.3.5 Do NPV and IRR always provide same decision? *109*
Summary *125*
Test Yourself *126*
Theory Questions *127*
Numerical Problems *128*

PAGE

5
COST OF CAPITAL

5.1 Concept of Cost of Capital *132*
5.2 Factors affecting Cost of Capital *133*
5.3 Significance of Cost of Capital *134*
5.4 Other Concepts of Cost of Capital *135*
5.5 Measurement of Specific Cost of Capital *136*
5.5.1 Cost of Debt *136*
5.5.2 Cost of Preference Share Capital *142*
5.5.3 Cost of Equity Capital *147*
5.5.4 Cost of Retained Earnings *153*
5.6 Overall (Combined) Cost of Capital - WACC *157*
Summary *177*
Test Yourself *178*
Theory Questions *179*
Numerical problems *180*

6
OPERATING AND FINANCIAL LEVERAGE

6.1 Concept of Leverage *185*
6.2 Operating Leverage *186*
6.3 Financial Leverage *190*
6.4 Combined Leverage *194*
6.5 Operating Leverage vs. Financial Leverage *196*
6.6 Business Risk vs. Financial Risk *197*
6.7 Importance of Leverage Analysis *198*
6.8 EBIT- EPS Analysis *198*
6.9 Financial Break-Even Point/Level *201*
6.10 Indifference Point/Level of EBIT *202*
Summary *217*
Test Yourself *218*
Theory questions *219*
Numerical Problems *220*

PAGE

7

CAPITAL STRUCTURE - THEORIES & DETERMINANTS

7.1	Capital Structure decision	*226*
7.2	Financial Structure	*227*
7.3	Capital Structure	*227*
7.4	Net Income Approach	*229*
7.5	Net Operating Income Approach	*232*
7.6	Traditional Approach	*234*
7.6A	Modigliani and Millar Hypothesis with No Taxes : Irrelevance of Capital Structure	*236*
	7.6A.1 Arbitrage Process	*238*
	7.6A.2 Criticism of MM Approach	*240*
7.7	MM Hypothesis (with corporate taxes)	*241*
7.8	Features of an Appropriate Capital Structure	*241*
7.9	Practical Considerations in Determining Capital Structure/ Determinants of Capital Structure	*242*
Summary		*250*
Test Yourself		*251*
Theory Questions		*252*
Numerical Problems		*253*

8

DIVIDEND THEORIES AND PRACTICE

8.1	Dividend decision	*255*
8.2	Issues in Dividend Policy	*256*
8.3	Significance of Dividend Decision	*257*
8.4	Dividend as a Residual Decision or Residual Theory of Dividend	*257*
8.5	Walter's Model on the Relevance of Dividend	*258*
8.6	Gordon's Model	*261*
8.7	Miller-Modigliani Theory on Dividend (MM Hypothesis or MM Model)	*266*
	8.7.1 MM Model Assumptions	*266*

PAGE

8.7.2 MM Model Explanation *267*
8.7.3 Criticism of MM Model *268*
8.8 Dividend Policy - Concept *270*
8.9 Factors Influencing Dividend Policy *271*
8.10 Types of Dividend Policies *273*
8.11 Importance of Stability of Dividends or a Stable Dividend Policy *274*
Summary *286*
Test Yourself *287*
Theory Questions *287*
Numerical Problems *288*

9

WORKING CAPITAL MANAGEMENT

9.1 Introduction to Working Capital Management *293*
9.2 Need for Working Capital *294*
9.3 Definition & Concepts of Working Capital *294*
9.4 Types of Working Capital *294*
9.5 Importance of Working Capital *295*
9.6 Excess and Inadequate Working Capital *296*
9.6.1 Disadvantages of Excess Working Capital *296*
9.6.2 Dangers of Inadequate/Short Working Capital *296*
9.7 Determinants of Working Capital or Factors affecting working capital *297*
9.8 Approaches of Financing Current Assets *298*
9.8.1 Short-Term vs. Long-Term Financing: A Risk-Return Trade-off *299*
9.9 Dimensions of Working Capital Management *299*
9.10 Operating Cycle and Cash Cycle *300*
9.11 Estimation of Working Capital Requirement *301*
Summary *311*
Test Yourself *311*
Theory Questions *312*
Numerical Problems *313*

PAGE

10
CASH MANAGEMENT

10.1 Introduction *316*

10.1.1 Meaning of Cash and Cash Equivalents *316*

10.2 Motives of holding cash *316*

10.3 Objectives of Cash Management *317*

10.3.1 To meet the cash disbursement needs *317*

10.3.2 To minimize funds committed to cash balances *318*

10.4 Factors determining cash needs *318*

10.5 Cash Budget *319*

10.6 Management of cash *323*

10.6.1 Specific techniques for speedy collection of receivables are listed below *323*

10.6.2 Specific techniques for slowing disbursements are listed below *324*

10.6.3 Float Management *324*

Summary *324*

Test Yourself *325*

Theory Questions *325*

Numerical Problems *326*

11
RECEIVABLES MANAGEMENT

11.1 Introduction to Receivables management *327*

11.2 Costs and Benefits of Receivable or Credit Sales *328*

11.3 Objective of Receivables management *329*

11.4 Liberal vs. Tight Credit Policy and Optimal credit policy *329*

11.5 Dimensions of Receivables Management or Elements of Credit policy *330*

11.5.1 Credit Standards and Analysis *330*

11.5.2 Credit Terms *332*

11.5.3 Collection Policy *333*

PAGE

11.6 Credit Control *334*
11.6.1 Average Collection Period (ACP) *334*
11.6.2 Ageing Schedule *335*
Summary *336*
Test Yourself *337*
Theory Questions *337*
Numerical Problems *338*

12

INVENTORY MANAGEMENT

12.1 Introduction to Inventory Management *339*
12.2 Objectives of Inventory Management *339*
12.3 Costs and Benefits of Inventory Management *340*
12.4 Techniques of Inventory Management *341*
12.4.1 ABC Analysis *341*
12.4.2 EOQ Model *342*
12.4.3 Reorder Point *344*
12.4.4 Safety Stock *345*
Summary *347*
Test Yourself *347*
Theory Questions *348*
Numerical Problems *348*
ANNEXURES : • **Excel Applications in Financial Management** *353*
• **Mathematical Tables** *365*
Solved Paper - 2018 *373*
Solved Paper - 2019 *383*
Solved Paper - 2020 *392*
