

Preface

INMACS has been rendering highly professional and practical services to Indian and International businesses, Manufacturing and Trading houses, exporters as well as service providers. A solution to all complex issues is the unique selling point of INMACS.

The jewellers community is being subjected to excise law and now excise registrations are to be obtained before 31st July, 2016. I have participated in several meetings with jewellers from all over India and have also interacted informally at various levels of government to enable smooth implementation of proposed law without any harassment to genuine jewellers.

We have addressed various issues brought out during our interaction with the jewellers, excise authorities, senior professionals and businessmen.

Sh. Arun Jaitley, Finance Minister had proactively set up a committee to examine practical issues and problems likely to be faced by the Jewellers. The committee is headed by Dr. Ashok Lahiri, Sh. Gautam Roy and representatives of jewellers and other stakeholders. The committee has made very practical and detailed recommendations. National Economic Forum, a leading NGO had also provided their detailed research report to the Government. The Government of India has accepted most of the recommendations of National Economic Forum and the Lahiri Committee. The initiative taken by the Government is

reflected in large number of notifications, circulars and amendments to rules.

I must acknowledge support and guidance provided by **CA Piyush Goyal**, Minister of Power, Coal, Mines and Non-conventional energy to my various initiatives. The leadership of **Sh. Narendra Modi**, Hon'ble Prime Minister of India has changed approach of the revenue officials to highly positive and continuous process of liberalisation and simplification has timely began.

Let us together "Make in India" and "Start-up India, Stand up India" a great success.

I wish growth and success to jewellers in India as well as in international markets.
