Preface to Second Edition	I-5
Syllabus	I-9
Chapter-heads	I-11

1

BASIC COMPUTER CONCEPTS

1	Basic Computer Concepts	1	1.10	Types of Computers	20
1.1	Introduction	1	1.11	Essential Components of a Computer	25
1.2	Meaning of Computers	2	1.12	Relationship between Hardware and Software	27
1.3	A Brief History	3	1.13	Types of Software	28
1.4	Hardware	5	1.14	Mode of Acquiring Software	39
1.5	Functional Units of a Computer	13	1.15	Public Domain Software	40
1.6	Characteristics of a Computer	16	1.16	Summary	41
1.7	Advantages of the Computers	17	1.17	Review Questions	42
1.8	Uses of Computers	18			
1.9	Limitations of Computers	20			

2/3

MICROSOFT WORD 2010

3.1	Introduction	75	3.3	Review Questions	126
3.2	The Ribbon	76			

4

BASICS OF POWERPOINT

4.1	Introduction	130	4.4	Formatting a Presentation – Inserting Table, Smart Art, Chart & Pictures	134
4.2	How to create a Presentation using PowerPoint	131	4.5	Applying Themes	134
4.3	Design Ribbon Toolbar	132	4.6	Adding a New Slide	136

4.7	Applying Transitions & Animations	136	4.11	Effective Presentation Skills	145
4.8	Adding Sound & Video to your Presentation	140	4.12	Printing Slides	146
4.9	Adding a Hyperlink to your Presentation	143	4.13	How to Upload PowerPoint to YouTube	147
4.10	Presenting a Slide Show	144	4.14	Summary	148
			4.15	Review Questions	149

5**MS EXCEL 2010**

5.1	Introduction	151	5.8	Formatting Cells	164
5.2	Excel 2010 Environment	151	5.9	Sorting Data	166
5.3	Saving Workbooks	154	5.10	Charts	170
5.4	Worksheet Basics	155	5.11	Creating Simple Formulas	177
5.5	Printing	157	5.12	Complex Formulas	179
5.6	The Cell	160	5.13	Working with Basic Functions	183
5.7	Modifying Columns, Rows and Cells	162			

6**EXCEL FUNCTIONS**

6.1	Introduction	192	6.4	Financial Functions	221
6.2	Statistical Functions	192	6.5	Logical Functions	246
6.3	Mathematical Functions	211	6.6	Others	252

7**DECISION MAKING WITH EXCEL 2010**

7.1	What-If Analysis	262	7.4	Pivot Table	280
7.2	Solving Linear Programming problems with Solver	271	7.5	Capital Budgeting	284
7.3	Data Analysis	276	7.6	Ratio Analysis	287

8

EXCEL PROJECTS

8.1	Payroll Accounting	292	8.4	Statistical	316
8.2	Loan and Lease Accounting	300	8.5	Unsolved Questions	334
8.3	Depreciation Accounting	308			

9

INTRODUCTION TO DATABASE SYSTEM

9.1	Introduction	346	9.5	Evolution of Database Management Technology	353
9.2	Database System	347	9.6	Modern Approach to Database	354
9.3	Traditional File System	350	9.7	Summary	383
9.4	Traditional File System vs. Database System	352	9.8	Review Questions	384

10

DBMS USING MS ACCESS 2010

10.1	Introduction	386	10.7	Creating Queries	408
10.2	Objects in MS Access 2010	387	10.8	Queries using SQL	425
10.3	Creating Database	388	10.9	Forms Using Form Wizard	436
10.4	Understanding MS Access window	389	10.10	Preparing Reports using report wizard	445
10.5	Creating tables	390	10.11	Review Questions	464
10.6	Implementing Relationship between the Tables	405			

11

MAIL MERGE

11.1	Introduction	475	11.4	Mail merge using database in MS Excel 2010	494
11.2	Steps to use Mail Merge	476	11.5	Review Questions	496
11.3	Mail merge using database in MS Access 2010	487
