

Preface

*The Book is specifically conceived for **CA Final** Course. This book covers the entire syllabus prescribed in **Strategic Financial Management** paper. The book is divided into **two parts**.*

***Part I** of the book covers the theoretical subject in pointwise manner which is easily understandable even to the average student. The theoretical examination questions along with para reference numbers are given at the end of each chapter, as well as, at the end of Part I, sessionwise.*

***Part II** covers the fully solved practical examination problems. The book covers more than 20 years examination sessions of CA Final. The examination problems of CMA Final and CS Final are also given wherever necessary to cover all aspects of the subject. The book consists of 763 solved examination problems apart from number of illustrations given in Part I.*

Formulas and Formats are given at the beginning of the book for easy reference.

The book is very comprehensive enough for preparation to the examination and the students are suggested not to get confused by referring to more number of books that are available in the market.

The book is equally useful for Students who are preparing for CMA Final and CS Final Examinations on Strategic Financial Management.

*I am thankful to the faculty and students who have suggested modifications. I am also thankful to the publishers and their staff in bringing this edition which is most suitable for preparation to the **CA Final Examination on Strategic Financial Management** subject.*

I thank you one and all.
