Preface

The book is specially conceived for ***Chartered Accountancy Final*** *course for preparing to the Paper* ***'Strategic Financial Management'*** *Group-I, Paper 2.*

The theoretical aspects of the course syllabus are presented in a very brief and nutshell manner without sacrificing the depth of the subject. The theoretical subject is presented with parawise reference numbers. Theoretical examination questions of ***CA Final*** *course are given from the year 2001 onwards.*

Past 15 years fully solved practical examination problems of ***CA Final*** *course are given at the end of respective chapters, with full working notes, easily understandable to the students.*

I hope the book is very much useful to students, as a quick referencer, for preparation to ***CA Final*** *course on* ***'Strategic Financial Management'*** *Paper.*
